

Quarterly Education Evaluations September 2013

Healthcare providers n = 15 hospital staff

	Disagree	Somewhat disagree	Neutral	Somewhat agree	Agree
Content extended my knowledge of the topic					15
Instructional methods illustrated the concepts well					15
I achieved program objectives					15
Presenter demonstrated competence of topic					15
Presentation was clear and to the point					15

Comments:

1. What did you find helpful? Info about plants. Excellent! Speaker was very captivating. Awareness of types of spiders and snake that are poisonous. It was great.
 2. What future programs would you like? More of same topic
- Increased knowledge about coral snake toxicity. 10 tests returned.
Pre-test: 19 answers wrong.
Post-test: 5 answers wrong.

Healthcare providers n = 10 ER nurses

		Strongly agree	Agree	Neutral	Disagree	Strongly disagree
Content provided was beneficial		10				
Program met stated objectives		10				
		no answer	Very good	good	poor	
Content			10			
Teaching Methods		6	4			

Comments:

1. What have you learned that you will apply to your work? Poison Control resources. Drug overdoses are seen in the ER all the time. Also we could certainly see a snakebite in our unit. New/current drugs being abused. Different drugs that are popular. Difference between snakebites.
 2. What was the best part of the program? Presentation. Knowledgeable, energetic. Everything! Review of new treatments.
- Increased knowledge about coral snake toxicity. 12 tests returned.
Pre-test: 19 answers wrong
Post-test: 0 answers wrong

Public audience n = 20 high school students and counselors

Qualitative comments after a tox trivia team contest and poison career speech:

- The trivia quiz kept us engaged and helped us interact with more campers
- Come back next year!
- Very interesting. She spoke well and the activity was really fun. Learned some cool facts.
- I learned new things I didn't know before. I also know who to call if there's an emergency.
- It was a good ice breaker interacting with our groups
- The trivia was a nice touch.
- Talked about nursing.
- I thought it was really interesting and I loved working as a team.
- Cool, scary.
- It was really interesting to listen to her stories.
- The trivia and music were awesome!
- JoAnn was fun and enjoyable.
