	Disagree 1	2	3	4	Agree 5
Content extended my knowledge of the topic				1	14
Presentation was clear and to the point				1	14
Presenter demonstrated competence of topic					15
Method used to present materials held my attention					15

Comments: Wonderful presentation! Very informative. Interesting topic/new info. Good website info.

What did you find most helpful? info about NICU babies in withdrawal, Bath Salts info, lipid therapy, case studies.

N = 10 nursing students

	Excellent	Good	Fair	Poor
Today's program was:	10			
Content was easy to understand	10			
Speaker was professional and effective	10			

Comments: Extremely interesting and fun. Mrs. Chambers was so pleasant and knowledgeable. Thank you! I learned a lot. Wonderful information. Had no idea how many things are considered poisonous. I loved the test questions. I'd like to hear a tape of a call that was more involved. Awesome and informative presentation. Educational and beneficial. Great presentation. I really enjoyed this presentation.

N= 18 Paramedic students

	Excellent	Good	Fair	Poor
Content presented in logical & organized manner	18			
Speaker demonstrated current knowledge of topic	18			

State a fact you learned: Be careful using Narcan in pregnant women who could be opiate addicts. Poison Control can be held liable. Poinsettias are only deadly in large amounts. Arthritis pain reliever is very poisonous if ingested because of the ASA.

Comments: Very informative! Wealth of knowledge. Enjoyed it. Good presentation.
