

Virtual Nursing Practicum - PCC Resources Survey

August 10, 2020

N = 9

Questions	Yes	No
Did you complete the research?	100%	
If yes, please provide your feedback on the data dashboard: <ul style="list-style-type: none"> • It was eye opening and informative. • I liked that it was interactive and informative. 		
Did you receive your package in the mail?	Yes	No
	100%	
If yes, please provide your feedback on the toxidrome badge card: <ul style="list-style-type: none"> • I wish the card was sturdier and laminated, but the information will be useful to me as a nurse. • It provided quick access information for patients who present with various overdoses including acetaminophen and narcotics. • I found the information very user friendly and universal. I showed the card to my [restaurant] coworker and she was able to understand the physical manifestations to look out for. 		
Did you already know the content of the toxidrome badge card?	Yes	No
		100%
Did you find the educational flyers useful?	Yes	No
	100%	
Which flyers you liked the most? <ul style="list-style-type: none"> • The one on dangerous aquatic life. • Poison Prevention for Peds and 1st Aid for Poisonings • I liked that the flyers were colorful and eye-catching. They were easy to read and informative. • The flyer I liked most was the toxidrome sheet that detailed signs and symptoms of drug misuse. 		

- The flyers I liked the best were the Florida's Marine "Stings & Things", Common irritant plants of Florida, and Is your home poison-proof.

Virtual Nursing Practicum - PCC Awareness Survey

Before this practicum, how familiar were you with poison center services?	Not Familiar	Very Familiar
	100%	
Has your knowledge of poison control center services improved because of today's session?	Not at All	A lot
		100%

Please list at least 1 way the poison control center is responding to the COVID-19 pandemic:

- Education on danger of overconsumption of Zinc.
- Providing information about chemicals that are not safe to use or ingest, as well as their potential harmful effects.
- The poison control center continually advocates for the optimal health of the public through educational materials. Some of these materials encompass unsafe hand sanitizer use, and herbal supplement use.
- Educating public about hand sanitizers, appropriate cleaning supplies, and teaching people how to clean properly.
- The poison control center is screening and answering calls related to cleaning substances and health during the pandemic.
- Providing information on cleaning products and how you CANNOT consume them.
- The center is experiencing a high volume of calls dealing with cleaning and disinfectant exposures. They also are seeing cases of children ingesting hand sanitizers with more focus put on hand hygiene.
