- I learned a lot and I am now making sure my house is safe
- He was very nice and polite
- It was very helpful/educational
- I liked how we learned about how people put drugs in pills we take now. I know when its safe or not
- The program was better than I thought. But wasn't that exciting when you walk in
- It was excellent and amazing
- I thought it was pretty fun
- He was helpful and way more fun and interesting than class

Suggestions for improvement

- None it was good
- Doing more fun stuff
- I didn't have any but to learn about drugs
- Talking about what poison control looks like for kids our age not just about babys
- Play some more games
- More hands-on stuff.
- To make his talking better like explain it more
- I don't
- None
- The speaker was great but the power points could have a little more information

- The way they did it
- Mio is bad for kids because of the caffeine
- None
- Have people check if anything is safe or not
- Make it a little bit more exciting
- Play more games
- I think he should pick people from the audience to help with stuff or tell people things.

Comments: 11/21/25 (Mike McCormick – Mandarin Middle #3)

- It was good
- The way the number was shown multiple times helped with remembering
- He talked loud and was fun

- N/A
- I have none
- It was good
- I have none! He did amazing!
- I have no suggestions

Comments: 11/21/25 (Mike McCormick – Mandarin Middle #4)

- Maybe saying the phone number less to get more information about poison control, what can happen etc.
- He has it fun and it was also educational and healthy
- I liked that you can call just for a question and won't get in trouble and they can help at home instead of going to the hospital
- It was professional
- It was good over all just slightly confusing
- I liked the spike up and down idea and it is fun for the kids
- Felt short and needed something to make it feel longer
- Very helpful now I understand why you should not take things your parents don't give
- I like that he know all the stuff to protect us and not get us poisoned.
- Very helpful
- Very good he was very nice
- His presentation really showed me a lot of stuff I didn't know

AHLS Provider Course Evaluation (Jacksonville, FL Nov 2025)

As a result of completing this continuing education activity, I have a greater awareness of the roles and responsibilities of others on the team. 3.00 5.00 4.83 0.48 0.23 23

Q5.1 - As a result of what I learned from my participation in this activity, I intend to make the following practice/performance changes that I believe will result in more positive patient outcomes:

Review toxidromes and appropriate treatments

Apply new knowledge into practice in EMS/Fire/HAZMAT response and patient care.

know more about Hamzat

Ensure that the correct medications and the most up to date equipment is made available for forward deploying elements

Assisting in updating protocols and training.

Reinforce and review decontamination and pre-hospital management of HAZMAT patients to first responders.

-More structured approach to toxicology

-Greater knowledge base about the different types of poisonings

-Treatment paradigm!

I will be able to better assess and treat patients with exposure to hazardous materials.

I want to bring more awareness to hazmat situations to better equip my hospital for handling them

Utilize antidotes effectively, when needed

Q5.2 - Please share any other comments or recommendations including improvements for the current activity or topics for future educational events:

With this being an advanced class, I feel that the majority of the repetitive information does not need to be recited on every slide. This was distracting and slowed the flow of the class.

AHLS Provider Course Evaluation (Jacksonville, FL Nov 2025)

Virtual course well done and met my needs. If course delivered in person, I could see a benefit in doing live scenarios with real-time assessment and treatments to better appreciate the complexity of a true HAZMAT event. This would require an additional few hours or additional day added to the course. Otherwise, no recommendations at this time.

Thank you all. Excellent instruction

The mimeo format for the required text is difficult to use, app frequently crashed, and digital only format made following along with the presentation difficult. opportunity for a hard copy would be greatly appreciated.

-Can include more types of poisoning e.g pharmaceuticals, household, plants, animals

The course was very informative. I would like to see more antidotes to be physically shown but appreciate what was explained.
