- Table in lakeland for Free at a family halloween event
- The examples of the nicotine amounts in relation to cigarettes were fascinating. I work in the community, so this was very helpful to learn about the impacts of nicotine and how these are marketed to youth.
- Thank you
- My second presentation from Allison. She is awesome!
- Even as a provider of tobacco prevention education, I learned a lot today. The 2025 rates of exposure and calls really shocked me! I love that you guys included the sneaky designs and ways that vapes are disguised and sold to youth as well.

- My phone couldn't scan the QR code. Cathy was great, full of energy, and very knowledgeable.
- Excellent resource. Preventive medicine and healthcare should be more front and center in healthcare. A healthy community means more resources can be applied to people who need them most.
- Great presentation
- Professional, concise, and informational
- Short and sweet information. I had a patient once years ago with a snake bite. Only one bag of antivenom had been given, and the patient's arm was swollen and turning black. It turned out no one had called the Poison Center from the ER or overnight. It is important to inform all healthcare professionals to call.
- Great!
- I think it was great information
